December 15, 1999

Andy Beaulieu, MD.
Deputy Director of the Center for Veterinary Medicine
FDA
Via Fax 301-594-1830

RE: Petition # 99P-4613

Dear Dr. Beaulieu:

Please take action to remove Monsanto's milk growth hormones from the American milk supply unless they can be proven harmless through legitimate, impartial research.

Please take steps to prosecute anyone who has been part of an illegal conspiracy involving improper approval of these powerful agents.

What steps do you intend to take in this regard?
